

CALL FOR BOOK CHAPTERS

Digital Bharat: Contemporary Issues and Challenges

An Edited Volume

Governance | Inclusion | Privacy | Economy | A Sustainable Digital Future

Digital India
Stronger India

Dear Colleague / Respected Scholar,

We cordially invite you to contribute a book chapter for the upcoming edited volume titled
“**Digital Bharat: Contemporary Issues and Challenges**”.

About the Book

Over the past decade, India’s “Digital Bharat” framework has transformed governance, commerce, public service delivery, and daily social life. Driven by Digital Public Infrastructure (DPI)—including Aadhaar, UPI, DigiLocker, and BharatNet—the nation has achieved rapid financial inclusion and technological integration.

However, this swift digital expansion has also surfaced critical socio-economic, political, legal, and ethical challenges. Issues surrounding the digital divide, data privacy, algorithmic governance, online polarization, platform labour, and national cybersecurity demand rigorous academic inquiry.

This edited volume aims to present a comprehensive, multidisciplinary analysis of India’s digital transformation.

All submitted chapters will undergo
a rigorous double-blind peer-review process
by subject matter experts to ensure
academic excellence and quality.

Editor

Dr. Saurabh Chandra

Vice-Chairman, RC-10 – Research Committee
on Electronic Democracy
International Political Science Association (IPSA),
Montreal, Canada

Important Dates

Notification of Chapter Acceptance:
10th September 2026

Full Chapter Submission Deadline:
20th September 2026

Submission Procedure

Please submit your full chapter (5,000–7,000 words,
APA 7th style) along with author details to:

✉ schandra.info1@gmail.com

Subject Line:

Chapter Submission: Digital Bharat - [Your Name]

Key Sub-Themes (Indicative)
