INTERNATIONAL SCIENTIFIC CONFERENCE POLITICAL SOCIALIZATION IN THE CONTEMPORARY WORLD: EXPERIENCES AND CHALLENGES

LUBLIN, 22–23 APRIL 2027

The aim of the conference:

The aim of the conference is to present research results and conduct an interdisciplinary discussion on political socialization in the contemporary world. Special attention will be devoted to the transformations of political socialization processes under conditions of globalization, digitalization, political polarization, migration processes, and challenges to democracy.

Proposed areas of interest:

- theoretical and methodological approaches to political socialization
- agents and institutions of political socialization (family, school, peer groups, religious organizations, political parties, social movements, media)
- political socialization and civic education
- digital media, artificial intelligence and political socialization
- political socialization of children, youth and new generations
- political socialization in democratic and authoritarian systems
- political participation and political culture
- political socialization in multicultural and migrant societies
- political polarization, disinformation and radicalization processes
- gender dimensions of political socialization
- religion and political socialization
- political socialization during crises, wars and global transformations
- comparative perspectives on political socialization
- contemporary challenges to democratic values and citizenship
- effects of the pandemic and the war in Ukraine on political socialization

01 February 2027 – registration closes
15 February 2027 – conference fee

The conference fee for participants
attending in person and online is 550
PLN (125 EUR; 150 USD)
